This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the definition of market value or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to Intended Use, Intended User, and the certifications are also not permitted. However, additional Intended Use, Intended User, and certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser’s continuing education or membership in an appraisal organization, are permitted.

Scope of Work

The scope of work for this assignment is based on the applicable assignment elements, including: the client and any other intended users, the intended use, the definition of market value that follows, the effective date, the subject property and its relevant characteristics, and the applicable assignment conditions. The appraiser must, at a minimum: (1) obtain and review adequate and reliable information for the subject property; (2) research, verify, and analyze adequate and reliable data for the subject market area including data for each comparable property reported; and (3) report his or her analyses, opinions, and conclusions in this appraisal report.

Intended Use

The intended use of the opinions and conclusions contained in this appraisal report is for the intended user to evaluate the property that is the subject of this appraisal for a mortgage finance transaction or related activities.

Intended User

The intended user of this report is the lender/client.

Definition of Market Value

The most probable price that a property should bring in a competitive and open market under all conditions requisite to a fair sale with the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for costs that are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable because the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third-party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar-for-dollar cost of the financing or concession, but the dollar amount of any adjustment should approximate the market’s reaction to the financing or concessions based on the appraiser’s judgment.

Statement of Assumptions and Limiting Conditions

The appraiser assumes that the title is good and marketable unless he or she becomes aware of information to the contrary.

If the appraiser has included a sketch or floor plan in this appraisal report, it shows the approximate dimensions and is included only to assist the reader in visualizing the property and understanding the appraiser’s determination of its size.

The appraiser has relied on data provided by third parties in this appraisal report. Such data may include, but is not limited to, floor plans, flood maps, multiple listing real estate services, tax assessment records, public land records, satellite imagery, virtual street views, property data services, surveys, engineering reports, and property data aggregations. After examination of the data and data sources, the appraiser has used only the data he or she considers reliable. The appraiser assumes there are no material omissions in the data relied upon and makes no guarantees, express or implied, regarding their accuracy. If the source date is prior to the effective date of the appraisal, the appraiser assumes the property characteristics and supporting information have not changed in the interim.

The appraiser will not be required to give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) that the appraiser became aware of during the development of this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and assumes that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

Certifications

Appraiser Certifications

The Appraiser certifies and agrees that:

1. I have no present or prospective interest in the property that is the subject of this report, or relationship with the present or prospective owners or occupants of the subject property, or other parties involved in this transaction.
2. I performed this assignment without bias with respect to the parties involved in this transaction, the property that is the subject of this report, or the demographics of the area where the property is located.
3. I am aware of and have complied with all applicable laws and regulations including antidiscrimination laws, rules, and requirements that apply to the appraiser and to the assignment.
4. I did not base any part of my appraisal on the actual or perceived race, color, religion, sex (including sexual orientation or gender identity), age (other than as applicable for legally age-restricted communities), marital status, disability, familial status, or national origin of the present or prospective owners or occupants of either the subject property or properties in the area of the subject property or on any other basis prohibited by the Fair Housing Act or the Equal Credit Opportunity Act, or any other basis prohibited by law.
5. I stated in this appraisal report my own personal, unbiased, and professional analyses, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
6. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
7. I meet the credential requirements for this assignment as of the date of this appraisal report and have knowledge and experience in appraising this type of property in this market area.
8. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records, and other such data sources for the area in which the property is located.
9. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
10. I personally performed an onsite inspection of the interior and exterior areas of the subject property. I reported the readily observable condition of the improvements in factual, specific terms. I identified and reported any known physical deficiencies that could affect the soundness or structural integrity of the property.
11. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was transmitted.
12. Using information available in the normal course of business, I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal.
13. Using information available in the normal course of business, I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale.
14. I based my valuation on the available properties that are most similar to the subject property.
15. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
16. I have identified the differences between the subject and comparable properties, analyzed the market reaction to those differences, and reflected those differences in the analysis.
17. To the extent possible, I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
18. I have taken into consideration the factors that have an impact on value with respect to the subject property, and its location, including its proximity to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that I became aware of during the development of this appraisal. I have considered these adverse conditions in my analysis of the property value and have reported on the effect of the conditions on the value and marketability of the subject property.
19. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
20. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analyses supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
21. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. No one provided significant real property appraisal assistance.
22. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

Certifications (continued)

23. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.
24. I am aware that any disclosure or distribution of this appraisal report or any of its contents by me or by the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
25. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions. Any of the foregoing persons or entities who receive this appraisal report may choose to store, copy, reproduce, analyze, use and distribute the data in the appraisal report for internal or external purposes without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media). A person or entity who receives a copy of an appraisal report does not become an intended user, unless the appraiser identifies such person as an intended user. The appraiser and supervisory appraiser (if applicable) shall have no liability for any use of this appraisal report not related to the mortgage finance transaction and related activities for which this appraisal report was prepared.
26. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may choose to rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties. A person or entity who receives a copy of an appraisal report does not become an intended user, unless the appraiser identifies such person as an intended user. The appraiser and supervisory appraiser (if applicable) shall have no liability for any use of this appraisal report not related to the mortgage finance transaction and related activities for which this appraisal report was prepared.
27. If this report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this report containing a copy or representation of my signature, I agree that my electronic signature has the same force and effect as my manual handwritten signature, and that the report is enforceable and valid as a paper version of this report would be if delivered containing my manual handwritten signature.
28. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.
29. I have not performed any service regarding the subject property within the three years preceding the agreement to perform this assignment.

Condition and Quality Rating Definitions

Condition Rating Definitions

Condition Ratings describe the physical condition of a property as of the effective date of the appraisal on an absolute basis, not on a relative basis or how a property relates to other properties.

Condition Rating definitions are used for Overall Condition, Exterior Condition, and Interior Condition.

Rating	Condition Rating Definition	Criteria
C1	The dwelling is 100% newly constructed, completed within the past 12 months, has never been occupied, and exhibits no signs of wear or use.	A dwelling in C1 condition: • Has a foundation that must be 100% original to the new construction. • May include non-structural components composed of "like new" recycled materials (e.g., reconditioned or refinished barn wood). • Is a 100% newly constructed dwelling that does not exhibit physical depreciation.
C2	The dwelling exhibits like-new condition. It has been recently constructed or entirely remodeled within 36 months prior to the appraisal date, while retaining portions of the pre-existing structure. The dwelling may have been occupied but features no deferred maintenance and requires no repair.	A dwelling in C2 condition: • Has been recently constructed (within the past 36 months), and otherwise exhibits virtually no wear and tear, but is no longer new due to occupancy or use (e.g., model home), or • Has been fully remodeled "to the studs" including new major components; a new dwelling built utilizing the footprint or façade of a pre-existing dwelling; or a newly converted condo/co-op in a pre-existing building.
C3	The dwelling has been well-maintained and exhibits only minimal wear and tear. The dwelling may exhibit only minor age-related physical depreciation; or, most components, but not every major building component, has been updated or renovated.	A dwelling in C3 condition will likely have: • Components or rooms that are older but have been very well maintained or experienced minimal use, and show little or no physical depreciation, or • Major components or rooms that have been recently updated, but which do not constitute a full-home renovation/remodel. • Examples of major components include but are not limited to a combination of (one or more): Newer roof, Some newer mechanicals, New/newer floor coverings, Remodeled kitchen or bathroom(s).
C4	The dwelling has been adequately maintained and exhibits moderate wear and tear resulting from occupancy and exposure to elements. The dwelling may feature some updating, but otherwise contains deferred maintenance items that are generally minor or cosmetic in nature.	A dwelling in C4 condition may have experienced some periodic updating but most components are near the middle of their life cycle. Common deferred maintenance resulting from typical use is apparent but presents no immediate impact. Examples include, but are not limited to: • Minor damage to walls or trim (interior or exterior) • Worn floor finishes or carpet that shows age • Kitchen or bathrooms that are dated but fully functional
C5	The dwelling exhibits significant wear and tear resulting from inadequate maintenance, but the soundness and structural integrity are sufficient to support occupancy. Some components may be missing or near the end of their useful life, but major components are still functional.	A dwelling in C5 condition has items that will need to be repaired, rehabilitated, or replaced in the near future for the dwelling to remain useable and functional. Examples include, but are not limited to: • Roofing that is significantly worn, cupped, or curled but with no apparent active leaks • Severely worn, damaged, or missing floor coverings • Functional kitchen or bathroom that may be in disrepair (e.g., damaged or missing cabinets or countertops)
C6	The dwelling features an extreme lack of maintenance, resulting in severe damages, deficiencies, or defects that impact the soundness or structural integrity, and the dwelling is not suitable for occupancy. There are major components that may be missing, no longer functional, or otherwise require immediate correction.	A dwelling in C6 condition is not useable or functional in its current state, and will require immediate repairs, rehabilitation, or replacement of key components. Examples include, but are not limited to: • Active roof leaks • Damaged or missing exterior components that allow weather intrusion into the dwelling with resultant structural impact or damage • Damaged or failing foundation • No functional kitchen or bathrooms

Quality Rating Definitions

This chart shows the definitions for

- Overall Quality rating
- Interior Quality, including room size, ceilings, trim, floor material, kitchen, and bathrooms
- Exterior Quality, including doorways, fenestration, architectural details, roof design, and exterior walls

Quality ratings describe the quality of a property as of the effective date of the appraisal on an absolute basis, not on a relative basis or how a property relates to other properties.

Quality Rating Definitions			
In each category, the property must meet the majority of the criteria listed but does not have to meet all criteria.			
Rating	Overall Quality Rating	Interior Quality Rating	Exterior Quality Rating
Q1	The dwelling is an individually designed, one-of-a-kind structure built to exacting standards with exceptional quality materials and luxury amenities. A Q1 dwelling exhibits the highest quality of workmanship and complexity in architectural design. There is a high degree of refinement and ornamentation. A Q1 dwelling is very rare or even non-existent in some communities.	• Spacious rooms with high ceilings featuring extensive use of treatments (e.g., coved, barrel, cupola, coffered, beamed) and exceptional grade trim and custom millwork throughout. • Exceptional grade, often rare or imported flooring materials, frequently featuring inlay work or other customization. • Spacious kitchens featuring top-grade materials, extensive cabinetry, and countertop surface area; appliances and fixtures are frequently state of the art, custom-designed, built-in, or commercial grade. • Luxury bathrooms, often oversized and featuring exceptional quality materials and multiple ornate or state-of-the-art fixtures and features.	• Custom fenestration and doorways using exceptional grade materials and engineering; featuring keystones or detailed mouldings throughout. • Roof designs using premium materials designed for longevity and resistance to weather; often featuring large ornamental overhangs, multiple hips and valleys, or steep pitches. • Exterior walls constructed using exceptional grade materials, often featuring multiple corners, unique angles and shapes, and extensive use of trim or decorative adornments.
Q2	The dwelling is a high-quality structure, often using customized or complex, commercially available plans. Materials and amenities have extended life expectancy, high energy efficiency, and greater detail, ornamentation, or custom finishes. A Q2 dwelling can contain a mixture of upgraded, high-end and luxury materials, constructed with high-quality workmanship.	• Spacious rooms with higher ceilings that may have custom design elements (e.g., coved, barrel, cupola, coffered, beamed), high-end built-ins, mouldings and wall treatments in communal areas and the main bedroom. • High-grade floor coverings designed for the highest level of durability and occasionally featuring inlays or other customization. • Large kitchens featuring high-end appliances, extensive cabinetry, and countertops. • Large bathrooms specifically dedicated to certain bedrooms as well as at least one common bathroom; containing high-end countertops, cabinetry, and plumbing fixtures.	• Multiple windows and doorways constructed with high-end materials, featuring custom design particularly at the front and rear entry and often featuring keystones or other decorative adornments. • Roof designs using high-end roof materials; typically featuring ornamental overhangs, steep pitches, and multiple ridges, hips and valleys, and gables. • Exterior walls constructed using high-end materials and featuring multiple corners with angled walls, unique shapes, and custom trim at focal points.
Q3	The dwelling represents housing that can be reproduced from standard plans, featuring a higher than standard degree of complexity and some customization in the structural design, amenities, and finishes. A Q3 dwelling can contain a mixture of premium and standard level materials or amenities. They are often characterized as "semi-custom" new construction, or as pre-existing dwellings that are upgraded using some premium materials or amenities.	• Large general living areas or main bedroom with all other rooms sufficiently sized. • Some rooms may have vaulted ceilings, and custom design elements such as built-ins, upgraded trim, finishes, mouldings and wall treatments. • Upgraded or high-grade floor coverings that exceed the quality and durability of standard-grade. • Moderately sized kitchens featuring upgraded appliances, cabinetry and countertops or a mix of upgraded and high-grade elements. • Multiple bathrooms of moderate size with some bathrooms specifically dedicated to certain bedrooms as well as at least one common bathroom; containing upgraded cabinetry and plumbing fixtures or a mixture of upgraded and high-end elements.	• Multiple windows and doorways constructed with upgraded materials and featuring decorative design elements adorning at least the front of the home. • Roof designs using upgraded roof materials; may have steep pitches, could have more than one ridge with hips and valleys, gables, and overhangs. • Exterior walls constructed using upgraded materials and featuring multiple corners with some angled walls or unique shapes.

In each category, the property must meet the majority of the criteria listed but does not have to meet all criteria.			
Rating	Overall Quality Rating	Interior Quality Rating	Exterior Quality Rating
Q4	The dwelling is constructed using standard building plans and designs that can be reproduced multiple times with minimal customization or style variations. The materials and amenities are widely available and can contain a mixture of some standard and economy-level materials.	• Sufficiently sized rooms typically with flat ceilings and some vaulted ceilings in larger rooms, some trim or finishes of basic design. • Standard floor coverings that exceed the quality and durability of economy grade. • Moderately sized kitchens featuring standard-grade appliances, cabinetry and countertops or a mix of economy and upgraded elements. • Usually featuring multiple bathrooms of moderate size containing standard-grade cabinetry and plumbing fixtures or a mixture of economy and upgraded elements.	• Windows and doorways constructed of standard-grade material. • Simple roof designs using standard-grade roof materials with moderate pitch and could have more than one ridge; may feature some simple decorative elements such as gables or overhangs. • Exterior walls constructed using standard-grade materials and featuring multiple corners; but basically rectangular in shape or footprint.
Q5	The dwelling is basic in design and meets minimum building standards. Dwellings rated Q5 are designed for efficiency in installation and construction representing basic housing. Q5 dwellings have minimal refinements or upgrades but are not considered substandard.	• Small rooms typically with flat ceilings, minimal trim or finishes of basic design. • Economy floor coverings that meet minimum standards. • Small kitchens featuring economy-grade appliances, cabinetry, and countertops or a mix of standard and economy grade. • Bathrooms that are limited in size and number, and feature economy-grade cabinetry and plumbing fixtures or a mixture of economy and standard-grade elements.	• Limited windows and doorways, constructed of economy grade materials, simple in shape and design, and featuring basic trim and finish. • Basic roof design, usually low-pitch and single roofline; features economy or standard-grade roof materials. • Exterior walls constructed using economy or standard-grade materials and featuring minimal corners; usually a basic rectangular shape.
Q6	The dwelling is a structure constructed in a manner reflecting a lack of basic architectural designs and may not meet local building standards. The materials and amenities are low quality, alternate, or non-customary; or whose construction or installation reflects unskilled workmanship and may not be adequately equipped to support year-round occupancy. Q6 dwellings may be rare or even non-existent in many communities.	• Small rooms often with low ceilings, limited closet or storage space, and little or no trim or finishes. • Low grade or non-existent floor coverings. • Small kitchens featuring only the minimum requirements for function; with limited cabinetry and countertop space; and low-grade or non-existent appliances. • Bathrooms that are limited in size and number and feature only the minimum requirements for function; limited or no cabinetry; and low-grade plumbing fixtures.	• Limited windows and doorways, constructed of lower-grade materials and featuring minimal or no trim and finish. • Basic roof design, usually low-pitch and single roofline; may possess inconsistent rooflines if additions are present; features low-grade or alternate roof materials. • Exterior walls constructed using economy or low-grade materials and featuring minimal corners; usually a basic rectangular shape.
